INTERNSHIP EXPERIENCE

MERN Stack Developer Intern — GrasTech

Mar 2025 – May 2025

- Developed 8+ responsive, reusable UI components in React.js, reducing code duplication by ~35% across 3 application modules
- Integrated 5+ REST APIs with dynamic data rendering, error handling, and loading states using React Hooks (useState, useEffect)
- Debugged and resolved 10+ frontend issues, improving cross-browser compatibility across Chrome, Firefox, and Edge
- Implemented MERN stack features following clean code practices, component-based architecture, and Git-based version control

PROJECTS

Collaborative Task Management System

Live | GitHub

React.js | Node.js | Express.js | MongoDB | JWT | REST APIs | Context API

- Built full-stack MERN app with role-based access control (Admin, Member, Viewer) and JWT-protected API endpoints
- Developed 6+ RESTful endpoints for task creation, assignment, and real-time status sync across sessions
- Architected modular React components using Context API for global state; onboarded 50+ test users during beta

Fitness Tracker Web Application

GitHub

React.js | Node.js | Express.js | MongoDB | Mongoose | REST APIs

- Built responsive fitness tracking app with 10+ reusable React components and dynamic UI via React Hooks
- Developed RESTful API handling workout, goals, and history endpoints; achieved Lighthouse score 90+ on performance
- Ensured mobile responsiveness and cross-browser compatibility across all major browsers

Personal Portfolio Website

GitHub

HTML5 | CSS3 | JavaScript | Responsive Design

- Designed fully responsive portfolio with CSS animations, smooth scroll navigation, and mobile-first design
- Implemented modern UI/UX principles ensuring consistent experience across all screen sizes

HIGHLIGHTS

- Deployed 3 full-stack MERN projects end-to-end — from database design to production on Vercel/Render
- Hands-on with JWT auth flow, RBAC middleware, and secure REST API design patterns
- Open to full-time, contract, and remote opportunities in Delhi NCR and beyond
